PROFILE

Product Designer with 3+ years of experience designing SaaS products, with a background in electronics and instrumentation. Experienced in 0→1 product design, complex workflows, information architecture, dashboards, interaction design, prototyping, and design systems. Skilled at simplifying complex business processes into intuitive product experiences.

WORK EXPERIENCE

Super Fitout Product Designer - Qatar 2022- PRESENT

Super Fitout SAAS Marketplace

- Built the SaaS product from scratch, designing the overall user experience from early concepts to the launched product.
- Designed end-to-end workflows, dashboards, and role-based experiences for multiple user types across the SaaS marketplace.
- Worked closely with stakeholders to understand business needs, solve user problems, and turn ideas into practical product experiences.

Message Broadcasting Patform

- Designing a new SaaS product for WhatsApp broadcasting, similar to WATI.
- Defining early product flows, information architecture, wireframes, and UI for the platform.
- Helping shape the product experience from the early stage based on user needs and business goals.

Photoshooto - UI UX Designer Intern Bangalore

- Designed website and digital content while learning practical UI/UX design through real client and product work.
- Created wireframes, visual designs, and other digital assets based on project requirements.

Emithra Seva Kerala 2020- 2022

Graphic Design & Video Editing

- Created graphics, social media visuals, and short-form videos for marketing and brand communication, gaining hands-on experience in visual storytelling and content design.
